SPECIAL SECTION ON THE SOUTHERN LAKE MICHIGAN COASTAL EROSION STUDY

DEDICATION

To Jack L. Hough 1

OVERVIEW

Overview of the Southern Lake Michigan Coastal Erosion Study. **David W. Folger, Steven M. Colman, and Peter W. Barnes** 2

GEOLOGICAL PREFACE

Late Wisconsinan and Holocene geologic history of the Illinois-Indiana coast of Lake Michigan. **Michael J. Chrzastowski and Todd A. Thompson** 9

ARTICLES

Coastal geomorphology and littoral cell divisions along the Illinois-Indiana coast of Lake Michigan. **Michael J. Chrzastowski, Todd A. Thompson, and C. Brian Trask** 27

The geologic framework of southern Lake Michigan. **David S. Foster and David W. Folger** 44

Survey of littoral drift sand deposits along the Illinois and Indiana shores of Lake Michigan. **Charles Shabica and Frank Pranschke** 61

Lake-level history of Lake Michigan for the past 12,000 years: the record from deep lacustrine sediments. **Steven M. Colman, Richard M. Forester, Richard L. Reynolds, Donald S. Sweetkind, John W. King, Paul Gangemi, Glenn A. Jones, Lloyd D. Keigwin, and David S. Foster** 73

Lake Michigan's late Quaternary limnological and climate history from ostracode, oxygen isotope, and magnetic susceptibility. **Richard M. Forester, Steven M. Colman, Richard L. Reynolds, and Lloyd D. Keigwin** 93

Beach ridges as monitors of isostatic uplift in the upper Great Lakes. **Curtis E. Larsen** 108

Rates and processes of bluff recession along the Lake Michigan shoreline in Illinois. **Randall W. Jibson, Jackson K. Odum, and John-Mark Staude** 135

Contemporary and historical rates of eolian sand transport in the Indiana Dunes area of southern Lake Michigan. **Greg A. Olyphant and Steven W. Bennett** 153

Wave climate and nearshore lakebed response, Illinois Beach State Park, Lake Michigan. **James S. Booth** 163

The influence of ice on southern Lake Michigan coastal erosion. **Peter W. Barnes, Edward W. Kempema, Erk Reimnitz, and Michael McCormick** 179

Video monitoring of nearshore ice in southern Lake Michigan. **Edward W. Kempema and Rob A. Holman** 196

The influence of ice on southern Lake Michigan coastal erosion. **Peter W. Barnes, Edward W. Kempema, Erk Reimnitz, and Michael McCormick** 179

Video monitoring of nearshore ice in southern Lake Michigan. **Edward W. Kempema and Rob A. Holman** 196

Modeling beach and nearshore profile response to lake level change. **William L. Wood, M. Todd Stockberger, and Leonard J. Madalon** 206

A sediment budget for southern Lake Michigan: source and sink models for different time intervals. **Steven M. Colman and David S. Foster** 215

REGULAR ARTICLES

An error budget for the determination of the atmospheric mass loading of toxic chemicals in the Great Lakes. **Raymond M. Hoff**..... 229

Measurements of atmospheric mercury concentrations in the Canadian environment near Lake Ontario. **William H. Schroeder and Joseph Markes**..... 240

The distribution of 42 PCBs, including three coplanar congeners, in the food web of the western basin of Lake Erie. **Susan E. Koslowski, Christopher D. Metcalfe, Rodica Lazar, and G. Douglas Haffner** 260

Fall food habits of American wigeon at Long Point, Lake Erie, Ontario. **Richard W. Knapton and Kerrie Pauls** 271

White Pekin ducks (*Anas platyrhynchos*) as monitors of organochlorine and metal contamination in the Great Lakes. **D.V. Chip Weseloh, John Struger, and Craig Hebert**..... 277

Interactive effects of cannibalism, recruitment, and predation on rainbow smelt in Lake Champlain: a modeling synthesis. **Xi He and George W. LaBar** 289

Genetic variation in naturalized rainbow trout (*Oncorhynchus mykiss*) from Minnesota tributaries to Lake Superior. **Charles C. Krueger, David L. Perkins, Rebecca J. Everett, Donald R. Schreiner, and Bernie May**..... 299

COMMENTARY

The Journal of Great Lakes Research: an evaluation upon the twentieth volume. **Keith W. Bedford** 317

VOL. 20 **1994** **NO. 2**

EDITORIAL

Research: The key to Great Lakes rehabilitation. **Michael A. Zarull**..... 331

REGULAR ARTICLES

American wildcelery, *Vallisneria americana*, as a biomonitor of organic contaminants in aquatic ecosystems. **Lesley Lovett Doust, Jon Lovett Doust, and Maciej Biernacki** 333

Identification of lampricide formulations as a potent inducer of MFO activity in fish. **Kelly R. Munkittrick, Mark R. Servos, Joanne L. Parrott, Vincent Martin, John H. Carey, Peter A. Flett, and Glen J. Van Der Kraak**..... 355

Effects of pulsed turbidity and vessel traffic on lake herring eggs and larvae. **Jacqueline F. Savino, Marc A. Blouin, Bruce M. Davis, Patrick L. Hudson, Thomas N. Todd, and Guy W. Fleischer**..... 366

Spawning by stocked lake trout on shallow, near-shore reefs in southwestern Lake Michigan. **J. Ellen Marsden** 377

Assessment of lake trout spawning: evaluation of traps for measurement of egg abundance. **David L. Perkins and Charles C. Krueger** 385

Interpretation of the sedimentology and morphology of perched glaciolacustrine deltas on the flanks of the Lake Superior basin, Thunder Bay, Ontario. **Brian A.M. Phillips and Phillip W. Fralick** ... 390

Effect and implications of differential isostatic rebound on Lake Superior's regulation limits. **Deborah H. Lee and Charles F. Southam** 407

Development of a mass balance model for estimating PCB export from the lower Fox River to Green Bay. **Mark Velleux and Douglas Endicott** 416

Estimates of toxic contaminant mean concentrations and loads from runoff water quality data. **Ioannis K. Tsanis, Ping Xu, and J. Marsalek** 435

Characteristics of a rapidly increasing colony of double-crested cormorants (*Phalacrocorax auritus*) in Lake Ontario: population size, reproductive parameters and band recoveries. **D.V. Chip Weseloh and Peter J. Ewins** 443

Motivations and satisfactions of Lake Ontario boating salmonid anglers. **William F. Siemer and Tommy L. Brown** 457

Hmong fishing activity and fish consumption. **Ray Hutchison and Clifford E. Kraft** 471

Benthic macroinvertebrate communities of southwestern Lake Ontario following invasion of *Dreissena*. **Timothy W. Stewart and James M. Haynes** 479

VOL. 20 **1994** **NO. 3**

EDITORIAL

Letter to JGLR authors. **Thomas J. Murphy** 495

ARTICLES

Embryonic mortality, bioassay derived 2,3,7,8-tetrachlorodibenzo-*p*-dioxin equivalents, and organochlorine contaminants in Pacific salmon from Lake Ontario. **Ian R. Smith, Brian Marchant, Michael R. van den Heuvel, Janine H. Clemons, and Jack Frimeth** 497

Distribution of PCB congeners in Sheboygan River (Wisconsin) sediments. **Margaret David, Laura M. Brondyk, and William C. Sonzogni** 510

Determination and genotoxicity of polycyclic aromatic hydrocarbons isolated from *Dreissina polymorpha* (zebra mussels) sampled from Hamilton Harbour. **Chris H. Marvin, Brian E. McCarry, and Douglas W. Bryant** 523

Evaluation of effects caused by high copper concentrations in Torch Lake, Michigan, on reproduction of yellow perch. **Sarah A. Ellenberger, Paul C. Baumann, and Thomas W. May** 531

Daphnia population dynamics in western Lake Erie: regulation by food limitation and yellow perch predation. **Lin Wu and David A. Culver** 537

Wet deposition of organochlorine pesticides and polychlorinated biphenyls to the Great Lakes. **C. H. Chan, Gary Bruce, and Bruce Harrison** 546

Adsorption and desorption kinetics of pyrene onto a Great Lakes sediment. **J. Mark Stapleton, James R. Mihelcic, and Donald R. Lueking** 561

Modification of Great Lakes regulation plans for simulation of maximum Lake Ontario outflows. **Deborah H. Lee, Frank H. Quinn, Douglas Sparks, and Jean Claude Rassam**..... 569

Physical model of Niagara River discharge. **Joseph F. Atkinson, Guoqing Lin, and Maneesha Joshi** .. 583

COMMENTARIES

Comment on "Preface to the special section on cause-effect linkages. Causality: the missing link between science and policy" (*J. Great Lakes Res.* 19(4):720–721). **Mary H. O'Brien**..... 590

Reply to Dr. Mary O'Brien. **Michael Gilbertson** 591

Proving causality is not always necessary and sufficient for regulatory action. **A. H. El-Shaarawi** ... 593

Reply to Dr. A. H. El-Sharawi. Inferring causality is sometimes necessary for extraordinary regulatory action—though not sufficient. **Michael Gilbertson** 594

VOL. 20 **1994** **NO. 4**

EDITORIAL

Aquatic birds in recovering ecosystems—management conflicts. **Peter J. Ewins** 597

ARTICLES

The resuspension and transport of fine-grained sediments in Lake Erie. **Wilbert Lick, James Lick, and C. Kirk Ziegler**..... 599

A generalized parametric wind wave model. **Stephen Clodman** 613

A rate constant model of chemical dynamics in a lake ecosystem: PCBs in Lake Ontario. **Donald Mackay, Susan Sang, Penny Vlahos, Frank Gobas, Miriam Diamond, and David Dolan** 625

Development of a mass balance model of the fate of 17 chemicals in the Bay of Quinte. **Miriam L. Diamond, Donald Mackay, Donald J. Poulton, and F.A. Stride**..... 643

Benthic nepheloid layers in central and western Lake Superior. **Jason Link** 667

Linked sediment/contaminant transport model for rivers with application to the Buffalo River, New York. **Jiangang Wen, Gerhard H. Jirka, and Gabriel Raggio**..... 671

Using geosynchronous satellite imagery to estimate summer-season rainfall over the Great Lakes. **John A. Augustine, William L. Woodley, Robert W. Scott, and Stanley A. Changnon** 683

Ecological comparisons of Lake Erie tributaries with elevated incidence of fish tumors. **Stephen B. Smith, Marc A. Blouin, and Michael J. Mac** 701

Effects of past mining activities on the arsenic concentration in fish from Moira Lake, Ontario. **Jose M. Azcue and D.G. Dixon** 717

The role of the zebra mussel, *Dreissena polymorpha*, in contaminant cycling: I. The effect of body size and lipid content on the bioconcentration of PCBs and PAHs. **Kathleen A. Bruner, Susan W. Fisher, and Peter F. Landrum** 725

The role of the zebra mussel, *Dreissena polymorpha,* in contaminant cycling: II. Zebra mussel contaminant accumulation from algae and suspended particles, and transfer to the benthic invertebrate, *Gammarus fasciatus*. **Kathleen A. Bruner, Susan W. Fisher, and Peter F. Landrum** 735

Biogenic silica in Lake Baikal sediments: results from 1990–1992 American cores. **Susan J. Carter and Steven M. Colman** 751

NOTES

Effects on productivity of shooting of double-crested cormorants (*Phalacrocorax auritus*) on Pigeon Island, Lake Ontario, in 1993. **Peter J. Ewins and D.V. Chip Weseloh** 761

Incidence of the leech *Actinobdella pediculata* on freshwater drum in Lake Erie. **Michael T. Bur** 768

Computer visualization of long-term average Great Lakes temperatures and ice cover. **Raymond A. Assel, Thomas E. Croley II, and Karl Schneider** 771

Comparative growth and survival of *Dreissena polymorpha* and *Dreissena bugensis*, exotic molluscs introduced to the Great Lakes. **Hugh J. MacIsaac** 783
